ROADMAP TO ZERO

Everlight Registered Product list for Textile Substrate on The ZDHC Gateway – Chemical Module

ChemCheck By ZDHC

Better Chemistry Better Life

Everlight Chemical

# 紡織用產品 ZDHC 網關 - 化學品模塊註冊清單
## Everlight Registered Product list for Textile Substrate on The ZDHC Gateway – Chemical Module

永光化學於 2015 年正式加入有害化學物質零排放基金會（Zero Discharge of Hazardous Chemicals, ZDHC Foundation），並於 2020 年達成品牌承諾，實現產品百分之百符合 ZDHC 有害化學物質零排放之願景。為展現永光持續支持 ZDHC 零排放聯合藍圖陣線，永光產品不刻意含有優先禁用化學物質，且持續符合 ZDHC 製造受限物質清單（ZDHC MRSL 3.1 版）。

同時，我們也積極與各大品牌及第三方機構單位合作進行紡織用產品認證，例如：藍色標誌（bluesign®）及全球有機棉（GOTS）認證。我們相信，這些信息可以協助紡織品和服裝供應鏈的所有合作夥伴。並且，永光已將符合 ZDHC MRSL 的紡織用產品註冊於 ZDHC 網關 - 化學品模塊中，品牌、零售商及紡織供應鏈廠商可利用該平台查詢符合公司生產所需的產品資訊。

Everlight Chemical officially joined the Zero Discharge of Hazardous Chemicals (ZDHC Foundation) in 2015, and achieved its brand promise in 2020 to realize the vision of 100% compliance with ZDHC. In order to show that Everlight continues to support the ZDHC Joint Roadmap, Everlight's products do not intentionally contain any of the priority chemical groups, and continue to comply with the ZDHC Manufacturing Restricted Substances List (ZDHC MRSL version 3.1).

At the same time, we are also actively cooperating with brands and third-party institutions to carry out the product certification for textile, for example, the bluesign® and GOTS certification. We trust that this information will be of assistance to all partners in the textile and clothing supply chain. And also, Everlight has already registered our textile dyestuff and auxiliary products on the ZDHC Gateway - Chemical Module. Brands, retailers and textile supply chain companies can use this platform to inquire product information within company demand.

### 備註 Remark

[1] 這是金屬錯合染料。This is a metal-complex product.

[3] 吐司酸原料可能造成 2- 萘胺的假陽性測試結果。 Tobias acid dyestuff may lead to false positive detection of 2-naphthylamine.

[4] 苯胺重氮鹽結構使用還原裂解檢測方法會造成不合格。 The structure of aniline diazonium salt will be non-compliance when using the reduction cleavage detection method.

***For each product, before use, please must confirm whether caused non-compliance due to dye concentration.***

### 備註 Remark

(1) 這是金屬錯合染料。

This is a metal-complex product.

(2) 產品染料結構中含有氟 (Fluoro) 作為反應基團，檢測總氟時可能造成 PFAS 的誤判。

The dye structure of the product contains Fluoro as a reactive group, and the detection of Total Fluoride (TF) may cause misjudgment of PFAS.

(3) 使用吐司酸 (Tobias acid, CAS No. 81-16-3) 作為原料合成染料，會經由還原裂解檢測方法而產生 2- 萘胺 (2-naphthylamine, CAS No. 91-59-8) 的假陽性測試結果。

The false-positive testing result of 2-naphthylamine from dyestuff might occur owing to Tobias acid as a raw material of dye.

(4) 使用苯胺 (CAS No. 62-53-3) 作為重氮鹽結構原料，請務必確認製品使用還原裂解法測得的苯胺含量是否符合 貴司之管制規定。

Since the dyestuff product uses aniline (CAS No. 62-53-3) as the structural raw material of diazonium salt. Please beware of the content of aniline by the reductive cleavage method.

(5) 使用苯胺 (CAS No. 62-53-3) 作為原料合成染料，會經由還原裂解檢測方法而產生 4- 胺基聯苯 (CAS No. 92-67-1) 的假陽性測試結果。

The false-positive testing result of 4-aminobiphenyl (CAS No. 92-67-1) from dyestuff might occur owing to Aniline (CAS No. 62-53-3) as a raw material of dye.

(6) 含 SVHC 物質，請務必於產品應用後再次確認製品是否可符合 SVHC 法規含量限值要求。

It contains SVHC substances, if you need to use it, please must confirm the content of SVHC substance after applying, and check whether the application fabric can meet the requirement or not.

***For each product, before use, please must confirm whether caused non-compliance due to dye concentration.***

## 附錄一、ZDHC MRSL 合規級別
## Appendix 1. Levels of ZDHC MRSL Conformance

**ZDHC MRSL v3.1**

| | | |
|---|---|---|
| | ★ LeveL 1 | Document review of SDS for information relevant to ZDHC MRSL and testing of the formulation which includes screening and analytical testing or only analytical testing. |
| | ★★ LeveL 2 | On-site assessment of management systems plus evidence that Level 1 principles of analytical evaluation for ZDHC MRSL conformance are fulfilled. |
| | ★★★ LeveL 3 | Chemical hazard assessment capability plus evidence that Level 1 and Level 2 principles for ZDHC MRSL conformance are fulfilled. |

***For each product, before use, please must confirm whether caused non-compliance due to dye concentration.***
*This document will be updated from time to time, please refer to the latest version of the document.*
